### Insulated IBC Jacket

Article # INSJKT01

#### Insulated IBC Jacket for 1000L IBC

Designed for the long term insulation of IBCs. Suitable for a vast range of liquids and chemicals. The Insulated IBC Jacket is used to keep liquids warmer for a longer period of time, once they are not longer being actively heated.

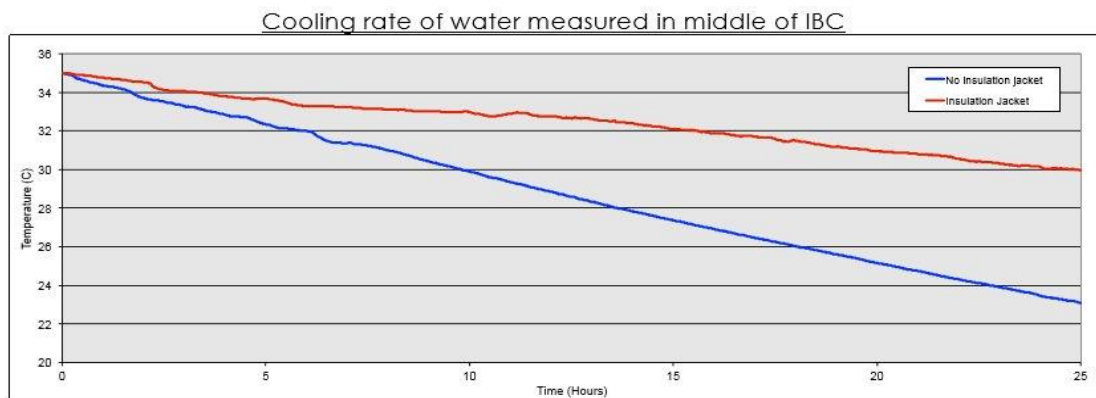

#### Why use an Insulated IBC Jacket?

- To keep product warmer for longer, once active heating has stopped
- To reduce risk of product becoming too cold and viscous

#### What are the benefits of using an Insulated Jacket?

- Cost effective way of keeping a product warm once it has been heated
- Compatible with Insulated IBC Lid
- Compatible with Heavy Duty Cover

The graph above shows the cooling rate of water measured in the middle of the container. A significant reduction in the cooling rate can be seen.
