

## The Pensteel Range of Open Top Drums

220/120/60/30 Litre Capacity

Pensteel is one of the premier companies supplying IBCs to the Chemical, Paint, Food and Pharmaceutical industries. Along with IBCs, we are able to now offer a range of Open Tops which, with UN approval complement our current range of liquid containers.

Our drums are made from high-density polyethylene (HDPE) resin by the extrusion blow moulding process. All the materials used in their manufacture have been authorised for use in contact with food. The 30 and 60 Litre sizes are fitted with drop handles that provides enhanced safety and security benefits.

These robust large aperture drums are fitted with a black HDPE lid, fastened by a galvanised steel closing ring that can be security sealed ensuring the highest degree of protection for the goods throughout the supply chain. The drums are designed to contain substances in the form of powders, granules and viscous materials. They are safe to handle and easy to open and close. Our drums are only available in blue.

The Open Top drums are all certificated for the transport of dangerous solid goods in compliance with UN packaging requirements.

Open Top Drums 30, 60, 120 and 220 Litres

Our open top drums are also able to use our tamper evident sequentially numbered tamper evident seal for secure transportation to your clients (please see our IBC accessories brochure for more details)

| Article No. | Capacity (L) | Weight (kg) | Diameter (mm) | Height (mm) | UN Mark Solids | Qty. Per Pack |
|-------------|--------------|-------------|---------------|-------------|----------------|---------------|
| 4013130     | 30           | 2.12        | 315           | 520         | X60            | 48pcs*        |
| 1243004     | 60           | 3.5         | 400           | 620         | X105           | 36pcs**       |
| 213012      | 120          | 6.0         | 496           | 800         | X225           | Loose Loaded  |
